

Contract Manager

Position: Contract Manager in ProUltimus Consulting.

Location: - NCR and Mumbai, India

Responsibilities:

- Deep Knowledge of contractual terms
- Recommend how to ensure claims even when we have a difficult client (government organizations)
- Recommended Education background: Engg + Contracts specialization
- Reporting into Project Management Head (VP)
- Advise at contract signing stage and throughout lifecycle of project

The expectations from the Candidate:

- Male or Female
- Should be well versed with contract handling including civil, mechanical, structural, equipment, electrical, erection testing and commissioning
- The candidate should be an engineer with minimum **8 years** of experience, preferably in EPC contractor firm.
- Should be a person who can guide the PMs proactively on potential claims and support/guide them in claim preparation in a contractual way and ensure that documentation is perfect for such claims.
- Should have knowledge about various terms of contract and their impact on our bottom-line and thus should participate in pre-bid discussions and identify such clauses and neutralize them suitably.
- Should be able to assess various risks and mitigation steps in contract execution-right from sale stage to handing over stage.
- Should take responsibility to ensure that all genuine claims are settled by customer (that means not like an advisor)
- Knowledge on arbitration and practical exposure to arbitration cases is mandatory.

Salary: At par with industry + other benefits as per company policy, however, salary is not constraint for eligible candidate

Note: Aspirants having master degree in Construction Management or having legal knowledge in construction dispute shall be preferred
